

# STOCKBEE -- 20%+ IN A WEEK

Up 20%+ over the last 5 trading days | \$100M+ dollar volume

May 18, 2026 - 08:20 PM ET

## METHODOLOGY

Stockbee's '20% Plus in a Week' momentum screen -- names that have surged 20% or more over the last five trading sessions. These are the market's most explosive short-term movers, often reacting to earnings, news, or sector rotation.

Membership criteria: (1) up 20%+ over the last 5 trading days; (2) 20-day average dollar volume >= \$100M (a liquidity floor so only tradeable names appear).

A large list signals a strong, broad momentum environment; a short list signals a narrow or risk-off tape. Sorted by dollar volume -- the most liquid movers first.

Next Ern = next scheduled earnings date (\* = estimated/unconfirmed window; 'Reported' = reported within the last 10 days). A 20%+ week running INTO earnings carries binary event risk; a 20%+ week just AFTER a report is reacting to news.
