Evidence

Evidence quality: moderate · Calibrated confidence: not available (insufficient graded history)
Source limitations: StockTwits only; Reddit unavailable due to access failure.
Accessibility: this PDF is structurally valid but UNTAGGED — it carries no logical structure tree, so screen-reader navigation is limited to reading order. Document language and title are set. Machine-readable checks are in TXN_validation_report.json, alongside the evidence export.

Data-quality flags: no point-in-time social baseline archived — attention cannot be called elevated or normal
